Our 24 hour Campground Contact Number is 737-3669

ABOUT OUR SERVICED CAMP LOOPS

Camp loops 1, 2 and 3 are fully serviced with water, electricity (15 and 30 amps) and septic disposal. Loop 4 sites have water, electricity (15 and 50 amps), septic disposal and wireless internet. Adapters for 50 amp service in Loop 4 are available from the check-in booth upon payment of a refundable deposit.

Owners of RVs are cautioned that overloading caused by the use of electrical equipment, especially air conditioners, may cause power interruptions. RVs with 30 amp service **will not damage** their electrical system if they plug into a 50 amp service. Occasionally, a power surge may cause problems but these are usually the result of faulty circuits inside the RV and not with the Park services. If you have problems with power at your site, please speak with the attendant at the check-in.

Dumping of septic waste directly onto the campsite is prohibited. Please use the septic disposal drain on the campsite or either one of the two FREE dump stations in the Campground. Please refer to the park map for their locations.

INTERNET SERVICE

Wireless Internet is located only in Loop 4 of our campground. If you are staying in Loop 4 please be advised that if you experience difficulties with the service please call 1-877-721-3282 for assistance.
